

UTeach Expansion in Texas SPRING 2022

UTeach is a national network of colleges and universities working together to improve STEM teaching and learning in the U.S. The UTeach network crosses the entire nation, with UTeach teacher preparation programs in 50 universities and thousands of UTeach alumni working at school, district, and state levels.

UTeach programs produce passionate, well-prepared teachers who stay in teaching longer and improve student performance in math and science.

Twelve Texas universities have UTeach programs, including the original UTeach program started in 1997 at the University of Texas at Austin.

UTeach graduates in Texas are projected to teach more than 500,000 STEM students annually by 2027.

The UTeach Institute supports a national community that improves STEM education by increasing the number and diversity of high-quality teachers and improving access to inquiry-based curriculum.
