# STEM

## Reach hundreds of innovative STEM educators

The UTeach Conference brings together more than 500 STEM and education faculty from universities across the nation, students who are about to enter K–12 teaching, and industry stakeholders for three days of meetings, interactive presentations, hands-on workshops, and panels and discussions devoted to strengthening STEM education.

## Why Support UTeach?

The U.S. needs at least 1 million more STEM professionals over the next decade.

**UTeach is part of the solution.** UTeach prepares teachers who stay in teaching longer, improve student performance in math and science, and influence students to enter STEM fields.

**UTeach is a smart investment.**

Nationally, UTeach programs will produce more than 8,000 high-quality STEM teachers by 2023.
