

UTeach Expansion in Florida

UTeach answers the challenge for universities to train more science, mathematics, computer science, and engineering teachers by enabling students studying these disciplines to earn teaching credentials without additional time or cost beyond their degrees.

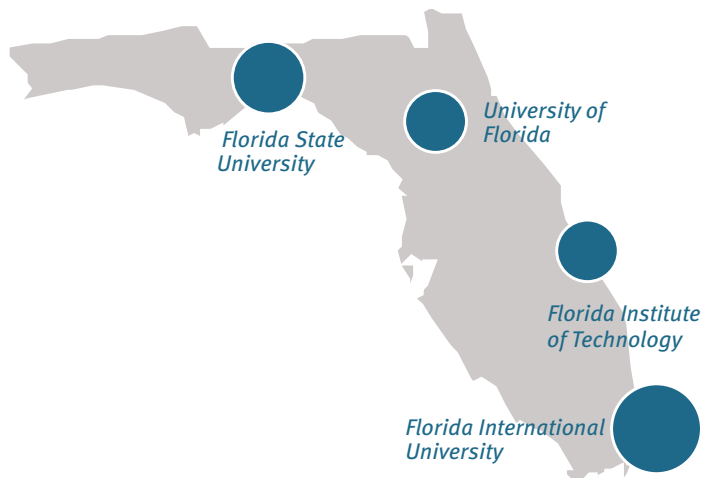

A unique collaboration among colleges of science, education, and liberal arts, UTeach prepares teachers with deep content knowledge and proficiency with pedagogical strategies that promote student mastery of science, technology, engineering, and mathematics (STEM) principles and concepts.

Four UTeach programs are located in Florida: University of Florida, Florida State University, Florida Institute of Technology, and Florida International University.

UTeach graduates in Florida are projected to teach nearly 300,000 secondary STEM students by 2023.

FLORIDA UTEACH PROGRAMS SPRING 2018

UTEACH PROGRAM GRADUATES IN FLORIDA CUMULATIVE ACTUAL AND PROJECTED

The UTeach Institute supports a national community that improves STEM education by increasing the number and diversity of high-quality teachers and improving access to inquiry-based curriculum.
